

SPECIAL NEEDS

The Smith College Campus is a walking campus. There is handicap parking available near the 'Quad,' which is close to the buildings where most classes will be held. There is also handicap parking available at the limited mobility dorm. If you require handicap parking, you will need to have your handicap sticker available at registration. You may want to consider bringing a rolling cart to transport items to and from classes. There will also be a van that will run before and after classes and during the lunch break.
